IV. REPORTS

a. Financial Policy
Senator Lake-King reported that the Financial policy committee commenced in January 2012 and is working with a consultant, Mr. Malcolm Kirwan, who has been instrumental in assisting with the process. The document is slated to be presented to the Board of Trustees on June 9, 2012. Some areas identified are procurement, travel and surplus property. It will be sent out to faculty and staff for feedback by next week. The purchasing section of the document will require some review and adoption. This will assist with the competitive bidding and procurement and determining thresholds. Travel reimbursement will be adapting the process of travel per diem and eliminating
the need for receipts and alleviate the accounting area of heavy travel reimbursement processing.

b. Strategic Plan
Senator Hall stated that the IEAAB met last week and their comments were proposed and they will be incorporated in the Strategic Plan document. All of the constituency groups are encouraged to respond by the deadline indicated in the memo. There is a tentative meeting scheduled for May 25, 2012 of the Planning committee. At the Cabinet retreat scheduled for May 14 or 15th all comments will be considered and necessary edits made. On June 9th the Board of Trustees will be meeting and the draft plan will be presented. On June 8th at the Board of Trustees retreat members will have an opportunity to review the strategic plan.

Action: Senator Jobsis will research if the Strategic Plan was disseminated to the Faculty for review.

c. CEA position decision
Senator Hall reported that one of the Presidential goals was to review the Campus Executive Administrator position. An assessment was made and the UVI community felt that the position added little value to the administrative structure, 80-90% felt not to continue with the CEA positions and the temporary structure should continue. A memo will be sent to the UVI community explaining the proposed changes and recommendations.

Recommendation: Permanently dismantle CEA positions on both campuses, both Directors for Campus Operations report to Chief Financial Officer and Deans of Student Affairs report to Provost. The Provost will coordinate the needs of St. Croix on daily operations. Physical Plant and Security on both campuses will report to the Director of Campus Operations.

d. Periodic Review Report
Senator Hall reported that the Periodic Review report was reviewed by an external editor and also an expert reviewer for feedback and recommendations. The PRR will be sent to the ARSA committee of the Board of Trustees on Monday, April 30, 2012. It will be shared with the Executive Committee of the Board on May 6, 2012. The document is slated for early submission prior to the June 1, 2012 deadline.

e. Student Conduct Code
Senator Hall reported that the Student Conduct code was being coordinated by Dr. Doris Battiste and Ms. Miriam Osborne-Elliott. The consultant is Attorney Ed Stoner and he has been working with the University to finalize the document ensuring that best
practices and consistency is inputted to the document. He is the author of the Model Student Code of Conduct. He made a site visit in January and met with constituency members and incorporated their feedback into the proposed document. The final draft was submitted to Cabinet and additional changes were recommended and forwarded to legal counsel. The document is in the process of being resubmitted to constituency groups for review. SGA is scheduling open forums for the students to voice their feedback on the document.

Senator Hall indicated that the reason for the revisions to the existing codes are a section of the code was found to be unconstitutional about a 1 ½ ago and we needed to come into compliance and our present code was out of date and it needed to be updated with best practices of various college campuses.

Goal is to have the draft document presented to the ARSA committee of the Board of Trustees on May 15, 2012 and approval of the document on June 9, 2012 at the Board of Trustees meeting. Feedback by all constituency groups is needed by the first week of May.

f. Solar panel project
Senator Hall updated the committee about the University’s progress in reducing our energy efficiency on the Water and Power Authority of the Virgin Islands. We are currently focusing on solar panel production of energy. We distributed an RFP and had numerous companies submit proposals. We created a committee made up of faculty and staff and invited four of the companies to present their proposals and answer questions. The selection committee selected one company that was forwarded to the Building and Grounds committee of the Board of Trustees. After their approval it was forwarded to Executive committee of the Board of Trustees where approval was granted to enter into a power service agreement with the selected company. Two open forums have been scheduled on both campuses to disclose information regarding the project. The University is not funding any money to the project just purchasing power from the company. The project will assist with generating an estimated 50% of the power that the university consumes on both campuses. Savings is estimated at approximately $800,000 – 1 million annually.
