

BOARD'S ROLE IN THE APPROVAL OF FACULTY  
APPOINTMENTS

(Board of Trustees Meeting, March 28, 1965)

There was a discussion on the Board's role in the approval of faculty appointments. The credentials of candidates for the faculty are circulated to the Board members. The procedure followed by the College in recruiting new faculty members was explained, including the role of the Dean of the Faculty and faculty committees and departments. Vacancies are made known and steps are used to find the best available person for each position. As a final step in the appointment process, the candidate's name is brought before the Board of Trustees for official confirmation of his appointment.
