Drop by Drop: The Titration Challenge
RTP 216 Saturday September 26, 2026
Group 1: 9-10:20 AM
Group 2: 10:30-11:50 AM

Calling all Grades 7-12 scientists! Join us for a free Saturday STEM Academy where you'll master the art of titration—a real-world chemistry technique that's part science, part precision puzzle. You'll carefully mix solutions drop by drop, chasing that dramatic color change that reveals the secrets of an unknown liquid. It's a steady-handed challenge used in medicine, environmental science, and beyond. No experience needed—just bring your curiosity! Spots are limited, so sign up today!
