

# Bachelor of Arts Degree

To qualify for a bachelor of arts degree, students must successfully complete a minimum of 120 credits (exclusive of physical education) including the general education requirements, the required courses in the major field, and such additional courses as they may select with the assistance of their faculty advisors to meet the requirements of the major.

## General Education Requirements

The general education requirements for graduation in the bachelor of arts degree programs are listed below. Specific guidance about the courses that are available to meet general education requirements will be provided to students in advance of registration. Students are required to meet with their advisors in the selection of their courses.

## SCHOOL OF BUSINESS

### Mission

The School of Business facilitates business education to a diverse population of students, with its major focus on the territory of the United States Virgin Islands and the Caribbean region, providing students with the skills to succeed in a global environment. We are dedicated to the cultivation of leadership, intellectual query and discovery, social responsibility and lifelong professional development and growth through excellent teaching, scholarship and responsive community service.

### Program

The courses of study in the School of Business are designed to prepare the student to assume positions in middle and upper management in business and governmental organizations. The program has been constructed on the premise that contemporary study in business administration must build upon a broad base of liberal education. The plan of study is intended to develop the students' capacity to make sound judgments in their eventual positions in management and administration and to endow them with the historical perspective necessary for an understanding of human values and motivations and the relationships between economic activity and society as a whole.

To achieve this objective, the program combines a number of required general business courses with the University's general education requirements. By taking these courses, the student can gain the required background of liberal education and general business knowledge. These course requirements broaden students' liberal education. This program provides additional study in a specialized area of business as well as practical business experience through a supervised work-study internship.

A master of business administration degree is offered by the University. Undergraduates who wish to take graduate courses or who plan to matriculate in the graduate program after earning their undergraduate degree should meet with their advisors and consult the Graduate Bulletin.

Students in the School of Business pursuing a bachelor of arts degree with majors in accounting or business administration are required to earn a minimum grade of "C" in all required courses in business administration and area of concentration.

The following tables summarize requirements for the majors in the School of Business.

## SCHOOL OF EDUCATION

### Mission

The mission of the School of Education is to dedicate itself to the success of all students through its excellent teaching and to prepare competent and effective P-12 teachers and other school professionals, including school administrators and school counselors, to function in highly complex and diverse settings and to promote academic excellence and student success in order to build a better future for individuals in the territory, the wider Caribbean and the world.

It is part of the mission of the University of the Virgin Islands to prepare teachers of young children in early care and education settings and in the public schools who are competent both academically and professionally. Towards this end, the School of Education offers (i) a major in inclusive early childhood education, (ii) a major in elementary education, and (iii) preparation in secondary education for students majoring in other fields. Certification of teachers is a matter for the territorial education authorities. The University's education programs, however, prepare graduates to meet certification requirements for teaching in the Virgin Islands. (Although the foreign language requirement may be met by any foreign language, Spanish is strongly recommended for those who plan to teach in the Virgin Islands.)

### Program

The program for elementary majors is designed to provide (a) broad preparation in the liberal arts, (b) concentrated study in one selected academic area, and c) professional preparation intended to produce highly effective teachers who can function successfully in a complex society — specifically the Virgin Islands — and to form a base for graduate study.

The inclusive early childhood education major is consistent with the University's liberal arts focus. In addition, the program is designed to provide students with a foundation of knowledge about child development in children from birth through age 8 years. Knowledge about atypical development and strategies to include children with developmental challenges are major components of this course of study. Students are prepared to become effective, professional teachers who value the collaborative relationships among and between schools, teachers, families, and therapists in a variety of disciplines in furthering children's development.

Preparation for secondary school teachers involves (i) satisfying general education requirements for the Bachelor of Arts degree and (ii) majoring in English, humanities, mathematics, science, or social sciences. Required professional courses are detailed below.

Admission to the elementary major and secondary preparation, both of which begin with Education 250, is by written application. Admission to the inclusive early childhood education major is by written application, and begins with EDU 216. Prospective students are urged to apply at the beginning of their sophomore year. Admission can normally be secured by the second semester of the sophomore year.

In order to qualify for admission, students must meet the following criteria (a) to (e), and have earned a minimum grade of "C" in the courses listed in (a).

Students are required to:

(a) complete both the general education and education requirements in

Communication	(COM 119, COM 120)
English	(ENG 120, ENG 201)
Science	(SCI 100 and 200, or two semesters of Laboratory Science)

# Bachelor of Arts Degree

Mathematics (MAT 140 or MAT 143 *and one of the following*: MAT 153, MAT 235, MAT 232) *and*

Education Courses EDU 221 and EDU 230 (Elementary major and Secondary Preparation or EDU 108, 109, 113, 114 (Inclusive Early Childhood Education)).

(b) maintain a cumulative grade point average of at least 2.50.

(c) pass the English Proficiency Exam.

(d) pass the Computer Literacy Exam.

(e) complete a pre-admission interview.

EDU 221 and EDU 230 are open to any student meeting the prerequisites. Non-education undergraduate majors may take education courses beyond these if they have satisfied the same general education and education requirements contained in section (a) above and have the required prerequisite(s) for the selected course. In addition, course work in the major area must be documented. Any person holding an earned baccalaureate degree from an accredited institution may enroll in education courses at the undergraduate level with the exception of student teaching. Students must demonstrate that they have met the prerequisite(s) for the selected courses by show of prior academic work.

Elementary education and inclusive early childhood education majors and persons seeking secondary preparation are required to earn a minimum grade of "C" in all required education courses in order to be eligible for student teaching. (All education majors who intend to meet certification requirements for teaching in the United States Virgin Islands should complete HIS 342).

Master of Arts degrees in Education Leadership and in School Counseling & Guidance are offered at the University. Undergraduates who wish to take graduate courses or who plan to matriculate in the graduate program after earning their undergraduate degree should meet with their advisors and consult the graduate bulletin.

## **Out-of-State Students**

The following applies to out-of-state students not regularly attending the University of the Virgin Islands:

# Bachelor of Arts Degree

---

- 1. Eligibility.** Only students formally recommended by schools of education of accredited colleges and universities, or involved in an exchange arrangement that the University of the Virgin Islands has approved with another college or university, will be eligible for acceptance for enrollment in EDU 452, EDU 469/497, EDU 406/407 (Student Teaching/Seminar). In approving any such requests, priority will be given to graduates of the Virgin Islands secondary school system enrolled in mainland colleges and universities.
- 2. Acceptance.** Acceptance of any outside students will be on a “space-available” basis, with priority given to University of the Virgin Islands students.
- 3. Status.** Outside students enrolled in EDU 452, EDU 469/497, EDU 406/407 may attend the University of the Virgin Islands on a part-time status only, unless special circumstances exist which warrant an exception. For example, an exchange relationship with another university may involve full-time students who, as part of their overall program, will enroll in EDU 452, EDU 469/497, EDU 406/407. Exceptions may be made only by the provost.
- 4. Instruction and Credits.** All outside students taking EDU 452, EDU 469/497, EDU 406/407, must conform to University of the Virgin Islands policies regarding contact hours, supervision, credits, etc., which apply to University of the Virgin Islands students. No special arrangements can be made in this regard.
- 5. Fee schedule.** Outside students will be required to pay a special fee of \$470.00, plus tuition, to cover costs associated with their enrollment.
- 6. Department of Education.** These policies have been approved by the Commissioner of Education. All students seeking admission into EDU 452, EDU 469/497, EDU 406/407 must receive the prior agreement of the Department of Education through the Office of School of Education’s Field Experience and Clinical Practice to do their student teaching in the local public school system.

## **CERTIFICATE**

### **Secondary Teaching**

This certificate program consists of a series of methods courses which provide practicing teachers and other school professionals with the body of professional and pedagogical knowledge, skills, and dispositions that prepare them to work more effectively with learners in secondary classrooms. Additionally, this program provides training in materials development, assessment and evaluation and cross-cultural communication. The program requires participation in field experiences and clinical practice under the supervision of the school's administration and university supervisor.

Enrollment in individual courses is open to anyone who meets the stated pre-requisite for each course. However, the certificate program is designed for in-service teachers holding at least a baccalaureate degree or equivalent from an accredited institution. Students at the University majoring in other content areas such as mathematics, science, social sciences, and English who aspire to one day become secondary classroom teachers may complete course work with the exception of the clinical course which can only be taken on the job in a secondary classroom.

### **Teaching English as a Second Language (TESL)**

This certificate program consist of a series of methods courses which provide students with the body of professional and pedagogical knowledge, skills, and dispositions that prepare them to work effectively with learners in elementary and secondary classrooms, whose first language is not English. Additionally, these courses provide training in materials development, assessment and evaluation and cross cultural communication.

Enrollment in individual courses is open to anyone who meets the stated prerequisites. However, the certificate program is open only to a) seniors at the University of the Virgin Islands with a GPA of 2.33 or higher completing a teacher preparation program or b) in-service teachers holding at least a baccalaureate degree or equivalent from an accredited institution.

## COLLEGE OF LIBERAL ARTS AND SOCIAL SCIENCES

### Mission

The College of Liberal Arts and Social Sciences (CLASS) of the University of the Virgin Islands (UVI) seeks to produce students who are self-directed problem solvers, with the ability to apply critical thinking to the study of the various disciplines of the Liberal Arts and Social Sciences.

CLASS is dedicated to assisting students in attaining academic distinction and fulfilling careers through our programs, by stimulating them culturally, mentally and physically by means of our course offerings, campus events and study abroad programs. The college offers degrees in communication, criminal justice, English, humanities, music education, psychology, public administration, social sciences, and social work. We are affiliated with universities on the US mainland which will afford students additional degree opportunities. The faculty of CLASS is steadfast in their commitment to students' progress, preparing them for their future studies and professional achievements. Graduates of CLASS are tomorrow's academicians, actors, attorneys, diplomats, economists and journalists. CLASS graduates are prepared to make significant contributions to societies locally, regionally and globally.

*Note: Humanities majors start below. Social sciences majors start on page 109. The Caribbean cultural studies minor, communication minor, English minor, fine arts minor, political science minor, psychology minor, and Spanish minor start on page 117.*

### Humanities

Humanities studies are frequently divided into separate disciplines. All, however, involve or are concerned with the imaginative and reflective experience of human beings and their communication with others. Here at the University of the Virgin Islands, these humane studies are collectively referred to as "the humanities," and they are housed within the College of Liberal Arts and Social Sciences. An education in the humanities provides a sound basis for careers in many fields. These fields include, but are not limited to, teaching, business and government administration, radio, print and visual media, public relations, and other areas which involve writing, editing, translating, and the performing arts.

In the Humanities, the University offers courses in art, communication, English, French, Spanish, journalism, music, philosophy, speech and theatre. It offers majors in communication, English, music education, humanities, and speech communication and theatre. The English and music education majors are the more traditional programs; the humanities major affords an unusual degree of individual flexibility and range, while demanding some of the initiative and discipline associated with graduate study. Students can focus on journalism via the communication, English or humanities major. The speech communication and theatre major is a versatile degree which prepares students for advanced studies not only in speech and theatre, but for any areas in which the ability to communicate effectively is an asset.

Students planning to teach in a secondary school must satisfy the secondary education requirements in the School of Education as well as the requirements of the school or college in which they major.

Students intending to pursue graduate work in one of the humanities need not concentrate their undergraduate studies in the same field. In some instances it is possible, in a few it may be preferable, that they place emphasis on another of the humanities or on one of the social sciences. In all cases, however, the students should consult graduate catalogs to determine minimum requirements for admission to the program in which they are interested. The following lists the required courses in the majors in the humanities.

## CONCENTRATIONS WITHIN THE ENGLISH MAJOR

Using the four required electives in the English major, students may elect to concentrate their studies in a particular area. At the present time concentrations are offered in (1) literature of the African diaspora, (2) creative writing and (3) journalism. Other concentrations may be offered in the future. Students may also design their own concentrations under the guidance of their advisors, or they may choose to take an assortment of English electives.

### Concentration in the Literature of the African Diaspora

Using the four required electives in the English major, students may elect a concentration in Literature of the African Diaspora. To concentrate in this area, students should:

1. Complete required courses in the English major, choosing ENG 433 Major Caribbean Author.

2. Complete the following electives in the English major:	Credits
ENG 371 or 372 Caribbean Literature I or II*	3
ENG 381 Modern African Literature	3
ENG 421 Oral Traditional Literature of Africa	3
ENG 423 Women's Literature of the African Diaspora	3

Each of these courses will be offered at least once every two years, so that students will have the opportunity to complete the concentration in a timely manner after finishing their General Education requirements.

*\*Whichever course has not been taken previously to fulfill English major requirements*

### Concentration in Creative Writing

Using the four required electives in the English major, students may elect a concentration in

creative writing. English majors electing to concentrate in creative writing should complete the following courses: Credits

ENG 301	Introduction to Creative Writing	3
ENG 302	Intermediate Fiction Writing	3
ENG 303	Intermediate Verse Writing	3
ENG 401	Advanced Creative Writing	3

Each of these courses will be offered at least once every two years, so that students will have the opportunity to complete the concentration in a timely manner after finishing their General Education requirements.

Students concentrating in creative writing may elect to complete a creative project rather than a research project in HUM 497-498, Senior Humanities Seminar, under the direction and guidance of a faculty advisor in creative writing.

## Concentration in Journalism

For a concentration in English, students must take a minimum of 12 credit hours in a particular area. Students who wish to concentrate on journalism in English will take the following: Credits

ENG 308	Newswriting for Mass Media I	3
ENG 310	Newswriting for Mass Media II	3

They will then choose from the following to round out the concentration: Credits

ENG 312	Feature Writing	3
ENG 324	Desktop Publishing	4
ENG 404	Professional Internship in Journalism/Writing and Publishing	1-3 (up to 3)

Students who wish to make regular contributions to the UVI VOICE student newspaper can take as an elective ENG 200 Journalism Workshop, 1 credit repeatable to 8 total credits.

Students in the English Journalism concentration may also elect to do an advanced journalism/writing/publishing project for their Hum 497-498 Senior Humanities Seminar, under the direction and guidance of a faculty member in journalism.

## ***Music Education Major***

### **Objectives**

The objectives of the music program are to: 1) train students for professional careers as teachers and performers; 2) prepare students for graduate study; 3) provide opportunities for students in other academic areas to study music for cultural and professional values; and 4) enrich the music experiences of the University and community.

### **Mission**

The mission of the Department of Music is to encourage academic excellence through the development of academic curiosity, and skill, as they relate to the discipline of music. Instructors of the Music Education Degree program are committed to the tenets of higher education that embrace and share active learning principles capable of creating lifelong learners and thinkers. Students will be able to function creatively and imaginatively with the ability to excite and educate Virgin Islanders, students of the wider Caribbean, and students of the global community, through outstanding teaching of music and the arts.

The University of the Virgin Islands is a learner-centered institution dedicated to the success of its students. As such, Music Department programs provide excellent and diligent teaching that instills personal and academic values through a professional commitment toward academic excellence at all levels of teaching and learning. Students of the Music Department are provided the opportunity to gain a Bachelor of Arts in Music Education, a Music Industry Certificate in either Audio Engineering or Music Business, and may participate in the Fine Arts Minor. While the Music major and Fine Arts Minor are housed on the St. Thomas Campus, Music Industry courses are offered across campuses. An additional Bachelor of Arts in Performance will be added to curricula offerings in the near future. Members of the University community and community at large may register to participate in any number of studio lessons, performance ensembles, and other program offerings.

The Music Department trains students for professional careers as teachers and performers; prepares students for graduate study; provides opportunities for students in other academic areas to study music for cultural and professional values; and enriches the music experiences of the University community.

### **Admission**

Students interested in the Music Education degree program at the University of the Virgin Islands currently enroll with a commitment to pursue the Bachelor of Arts Degree in Music Education. The University is a four-year institution that provides every opportunity for

# Bachelor of Arts Degree

---

students to graduate in a timely fashion and enter the workforce environment prepared, engaged, and equipped with a commitment toward lifelong learning and community engagement through the arts, especially.

Students of the University of the Virgin Islands and Music Education majors are high school graduates that have successfully completed university entrance requirements and those of the Music Department. University entrance criteria are articulated in the UVI catalog. Students entering the Music Education degree program must successfully complete a music theory placement exam or, if necessary, enroll in the Introduction to Music Theory course (Music 124). Interested parties are required to schedule an entrance audition.

Please note, Music Education majors cannot register for MUS 124, Introduction to Music, as a Humanities general education requirement.

## **Auditions**

Auditions will be held in March for a fall matriculation.

Auditions will be held in December for a spring matriculation.

Entrance exams require the following:

- a. Scales (major and minor)
- b. Arpeggios (major and minor)
- c. Two (2) distinct stylistic selections
- d. Sight-reading

Auditions last at least fifteen (15) minutes. Students who fail the audition may enter the program under a probationary period of one (1) semester of study on the applied instrument. The second audition occurs during the end of semester Jury. Failure to successfully complete the second entrance exam will require the student to identify another major.

Students unable to attend an on island audition may submit audition requirements via a jump drive or DVD recording.

## **Music Theory Placement Exam**

Entrance exams include a written music theory portion. The exam will assess the student's knowledge of basic theoretical principles and practices. Students will need to exhibit proficiency with the following:

- Scales
- Key Signatures
- Clef reading

The unsuccessful candidate will need to enroll in Introduction to Music (MUS 124).

If a student enters outside of the scheduled entrance examination period, the entrance audition and theory placement exam is also given just before the beginning of the semester.

## **General Requirements**

**Recitals:** Music Education majors and all students enrolled in Applied Music are required to perform in at least two recitals per semester and provide other musical services for the University as recommended by Applied Music instructors. Suitable performance attire is required.

**Examinations:** The final examination for Senior Research Seminar MUS 497 is the presentation of the abstract and supporting segments of the proposed Senior Recital program.

The final examination for Senior Research Seminar MUS 498 is the presentation of the research paper and Senior Recital program within an open forum.

# Bachelor of Arts Degree

**Ensemble Participation:** Music Education majors enrolled as full-time students are required to perform in at least one ensemble each semester of full-time enrollment. Students concentrating in piano and voice must enroll in MUS 242. Students concentrating in instrumental studies must enroll in either MUS 132 or MUS 133.

**Music Organizations:** Assignments to music organizations are made on the basis of audition or approval of the conductor.

Music Education majors are required to earn a minimum grade of "C" in all required Music Education courses.

## **Social Sciences**

The College of Liberal Arts and Social Sciences offers social science majors in Criminal Justice, Psychology, Social Sciences and Social Work. While the social sciences are divided into a number of fields — each with its own theories, terminology and professional history — they have in common the use of the scientific method to study and interpret human behavior.

The overall objective of the Psychology major is to assist in meeting the increasing manpower needs of the Caribbean in two critical and expanding occupational areas — the delivery of human services and the development, exchange and processing of information. The specific objectives of the major are two-fold. The first is to provide the appropriate curriculum and the critical skills that will enable psychology graduates to qualify for entry-level professional positions in human services and informational services such as research and the management and analysis of data. The second is to provide the program's participants with a multicultural perspective on human perception, thinking and behavior along with the conceptual and practical skills needed to work effectively in multicultural settings. A comprehensive program provides a solid foundation in the fundamental principles of psychology as well as an insight into the practical work involved in being a psychologist.

The Social Sciences major is an interdisciplinary one, allowing the students to select courses in all of the major disciplines of the social sciences, namely anthropology, economics, geography, history, political science, psychology and sociology.

Students may select the Social Sciences major as preparation for teaching the social sciences at the secondary or college level; as preparation for law school or graduate study in one of the social sciences, public administration, diplomacy or international relations; and/or as preparation for employment in governmental or private sector professions that do not necessarily require graduate study.

The students interested in teaching the social sciences at the secondary school level should major in Social Sciences and also satisfy the secondary education requirements of the School of Education. College teaching in the social sciences requires at least a master's degree, but a Ph.D. is preferred.

Students who intend to do graduate work in one of the social sciences should take as many courses as possible in the area they intend to pursue in graduate school. However, electives in other social sciences, the humanities, sciences or mathematics are strongly encouraged depending upon the specialization one intends to pursue in graduate school. In planning for graduate work, students should consult with their advisor and investigate minimum requirements for admission to the graduate school of their choice. They can then plan to meet these requirements while at the same time expanding their knowledge in other fields. University graduates may enter law school from any undergraduate field of concentration. However, familiarity with the basic concepts of economics, history, political science, psychology, and sociology is desirable.

The Social Work major prepares baccalaureate level social work professional practitioners to meet the social work manpower needs in the U.S. Virgin Islands and the Caribbean as a whole. The aim of the curriculum is to prepare graduates who are social work generalists. The curriculum is also designed to enable graduates to enter graduate schools of social work at an advanced level.

## ***Criminal Justice Major***

The BA in Criminal Justice prepares students for the many careers in criminal justice and law enforcement and lays the academic foundation for post graduate education and law school. This program covers the study of law enforcement and security procedures, courts and cor-

# Bachelor of Arts Degree

rections, and criminal justice theory. This degree will teach students the functions of criminal justice organizations and law enforcement procedures. Upon graduation, a student will have the knowledge necessary to begin a rewarding career in the field. This program is also designed to qualify those students who are already in the criminal justice and law enforcement fields for promotion to advanced positions. Students should seek advisement from the Criminal Justice advisor to plan their career path and select appropriate electives and substitutions where available in the paradigm.

## Admission to the Criminal Justice Major

- Achieved a cumulative GPA of 2.33 or higher following the completion of 52 credits of which 30 credit hours must have been taken at UVI
- Earned a grade of C+ or better in CJU 110
- Complete an application that can be obtained from the Registrar's Office or program website and submit it to the Chair of the Social Sciences Department.

## Other Requirements

Students pursuing an AAS, BA or BS in Criminal Justice are required to earn a minimum grade of C in all required criminal justice courses (CJU XXX), except for CJU 250 Criminal Justice Internship in which students must earn a minimum grade of B.

Students declaring this major must meet the following requirements before taking any CJU courses:

1. completion of WAC and RAC or received a passing grade on the placement exam(s) for entrance into ENG 120
2. completion of MAT 023 and MAT 024 or received a passing grade on the placement exam(s) for entrance into MAT 140, MAT 143 or MAT 153

## **Psychology Major**

Three concentrations are offered:

1) *An academic concentration in Psychology* offering a comprehensive foundation in the fundamental principles of psychology, with broad introduction to and a multicultural perspective on normal and abnormal human development, cognition, and behavior. This concentration should be selected by persons interested either in continuing on to graduate study in clinical, counseling, developmental, neuropsychology, health or experimental psychology, or in obtaining entry-level professional positions in the workplace after graduation with a B.A. degree, in roles such as information management or administrative positions which will require skills in research and the management and analysis of data.

2) *A cross-disciplinary academic concentration in Social Relations*, with an emphasis on the analysis of social institutions and social problems across cultures. Students with this concentration may be interested in graduate study in areas other than psychology, such as sociology, criminology or law school, or in obtaining entry-level positions in the workplace after graduation with a B.A. degree in administrative or information management roles.

3) *An applied concentration in Human Services* (currently in suspension), with a cross-disciplinary focus on human and social problems, and methods of intervention. This concentration should be chosen by students interested in graduate study in Social Work, or in obtaining entry-level positions in human and social service institutions in the U.S. Virgin Islands and the wider Caribbean, in order to provide direct social services to individuals, groups and families under appropriate professional supervision. It should be understood that this concentration does not qualify the student to provide direct social or counseling services independently of supervision. In order to progress in this concentration students must achieve a minimum grade of C (2.0) in the Introduction to Human Services and Field Placement and Seminar courses taken concurrently. Students who fail to achieve these grades may repeat the courses once for credit, or switch to another concentration in Psychology.

## MINORS

### ***Caribbean Cultural Studies Minor***

The Caribbean Cultural Studies minor allows students to convert an interest in the diverse heritage from which the Caribbean identity is forged into a recognized part of their university degrees. Students will acquire valuable interdisciplinary skills and a renewed appreciation of Caribbean culture, as well as some preparation to meet the increasing demand for international studies or Caribbean cultural ambassadorships. In addition to the required five core courses, students will complete (with a grade of C or higher) three additional elective courses from the list below, for a total of 24 credits.

## **CERTIFICATE**

### **Broadcast Communication**

This certificate program consists of a series of methods courses which provide students with the body of professional knowledge and skills that prepare them to work effectively with broadcast media both as on-air talent and as station operators. The certificate is specifically for students who wish to enter the broadcasting profession with sufficient background and training to succeed in the business. It is also for students who are studying other majors who wish to perfect their skills in presenting their ideas in public.

Enrollment in individual courses is open to anyone who meets the stated prerequisites. The certificate program is open to students who are already matriculated at UVI or students who have come to UVI solely to pursue this Certificate.

The Certificate will be awarded to students who complete 18 credits in the courses listed below with a grade of C or better in all.

Everyone will take the following core courses:

		<b>PREREQUISITE(S)</b>	<b>CREDITS</b>
COM 205	Broadcast Communication		4
ENG 120	English Composition		3

And up to 6 credits from the following courses:

COM 211	Radio Production	COM 205	3
COM 212	Radio Production	COM 205	3
COM 213	Radio Production	COM 205	3
COM 214	Radio Production	COM 205	3

Students will take the remaining credits (to the 18 credit total) from the following:

		<b>PREREQUISITE(S)</b>	<b>CREDITS</b>
COM 110	Introduction to Communication		3
COM 120	Public Speaking	COM 119	3
COM 200	Journalism Workshop	ENG 201	2
COM 227	Voice and Diction		3
COM 308	Newswriting for Mass Media 1	ENG 201	3
COM 310	Newswriting for Mass Media 2	COM 308	3
COM 340	Broadcast Communication 2	COM 205	4
ENT 205	Innovation and Entrepreneurship		3
MUS 110	Business of Music		3
MUS 125	Beginning Music Recording Workshop	MUS110	3
MUS 215	Music Mixing Workshop	MUS 110, MUS 125	3
MUS 217	Professional Tools: Digital Recording Techniques	MUS 110, MUS 125	3

Students taking courses for the sole purpose of being awarded the Certificate in Broadcasting are reminded that certain classes have prerequisites, and taking those classes will require more than 18 credits of course work. This is appropriate for matriculated students seeking a bachelor's degree. Students only seeking a certificate and who want to complete only 18 credits should avoid courses for which prerequisites are required. The following courses have prerequisites.

# Bachelor of Arts Degree

---

		<b>PREREQUISITE(S)</b>	<b>CREDITS</b>
COM 200	Journalism Workshop	ENG 201	2
COM 308	Newswriting for Mass Media 1	ENG 201	3
COM 310	Newswriting for Mass Media 2	ENG 201	3

Students completing the certificate program as part of a degree program can organize their coursework to have the prerequisites completed before beginning the classes that require prerequisites. Note also that some classes can be taken concurrently.

The program will organize these classes so that an NSE student could come in August and complete the certificate in one year. This requires that classes be sequenced and organized to insure that the right sequence is available every year. Students are encouraged to simultaneously pursue parallel certificates in Entrepreneurship or in the Business of Music and to participate in the 13D competition. The intent is to have certificate recipients skilled in broadcasting PLUS music recording or business operations.

## Music Industry

The Music Industry Certificate Program is a program designed to provide interested parties with training that will enable them to become successful entrepreneurs in the Music Business as audio engineers or music business entrepreneurs. The successful Music Industry Certificate student will have acquired the ability to create and maintain a successful music business, through the study of key music marketing principles and practices; patent, copyright, and trade law secrets which include patent protection for software and business methods. Students of the Audio Engineering track will be exposed to industry standards for digital audio recording methods, mixing equalization, and dynamic processing that includes acoustics for both studio and live sound installations. Participants will learn how to record and mix audio and audio-visual productions, and will learn how to produce distributable multi-channel surround sound products through mastering, mixing, and encoding.

The Music Industry Certificate Program provides interested students with the opportunity to become proficient through one of two (2) distinct music industry study tracks: Audio Engineering or Music Business. The Music Industry Certificate program requires twelve (12) credit hours of instruction (including the necessary prerequisite course MUS 110). Program participants will take the required MUS 110 Business of Music course followed by any three (3) courses in one of the two (2) tracks outlined within the Certificate Program.

## COLLEGE OF SCIENCE AND MATHEMATICS

### Mission

The College of Science and Mathematics is committed to helping students excel academically and achieve productive careers through programs in academics, research and community service. The College provides degrees in Biology, Chemistry, Computer Science, Marine Biology, Mathematics, Physics and Process Technology. Opportunities leading to degrees in engineering and medicine at affiliated universities augment our degree offerings. College faculty are committed to lifelong learning and scientific research, academic and pedagogical advancement, and outreach to the local community through service and enhanced opportunities.

### Program

In the College of Science and Mathematics, the University offers courses of study in astronomy, biology, chemistry, computer science, marine biology, and mathematics, with major fields of specialization in biology, chemistry, marine biology and mathematics. The College also offers pre-engineering and pre-medical technology programs.

Mathematics is the essential tool for all students of natural, physical and applied sciences. In addition, certain areas in mathematics, such as statistics, probability, linear algebra and calculus, are indispensable for certain advanced programs in the social sciences. The students' readiness to begin the study of mathematics at the college level will determine whether they are able to complete their undergraduate degrees majoring in chemistry or mathematics in the normal period of four years. The student who has mastered mathematics through at least high school trigonometry and second-year high school algebra should be able to maintain the pace of a college program in science or mathematics. Four years of high school mathematics are recommended. In addition, familiarity with the language and basic concepts of the sciences can be gained through high school courses in biology and chemistry.

Students planning to attend a graduate school of medicine, dentistry or veterinary medicine normally will major in either chemistry or biology as an undergraduate. Students should consult with their advisors concerning courses which may be required for graduate study in their fields of interest. Biomedical research training opportunities are available for interested students to work in the laboratory of faculty mentors.

The University of the Virgin Islands is one of the few institutions in the United States offering an undergraduate major in marine biology. As the program develops, specialized field courses in chemical and physical oceanography, marine geology and marine instrumentation will be added. It is anticipated that the growing recognition for marine technicians will result in expanded career opportunities for those who complete the undergraduate program. Students in this program also will be prepared for graduate work.

Preparation in such fields as architecture, pharmacy, engineering and forestry may often be completed within the four years of a normal baccalaureate program with transfer from the University of the Virgin Islands after the first year or two of undergraduate study. However, many engineering programs now require a minimum of five years of study for a bachelor's degree.

The bachelor's degree, together with appropriate preparation in teacher education, is the basic qualification for those intending to teach science and mathematics at the secondary level.

The following list the required and recommended courses in the College of Science and Mathematics:

# Bachelor of Arts Degree

## **Biology Major**

The requirements for a Bachelor of Arts Degree in Biology consist of the following Biology and related courses plus a study plan written by each candidate and his or her program advisor. Study plan guidelines and procedures will be published by the College of Science and Mathematics from time to time. The study plan must be approved by the faculty of the Biology Program and will be submitted to the Enrollment Services Office. Course numbering reflects the year by which courses should be completed. The study plan must include at least one plant-based<sup>^</sup> and one animal-based\* course. Any change in the study plan must be approved by the advisor and the program prior to course registration.

In addition to the general education requirements (see pp. 87-88), the following courses are required:

A. Required courses in Freshman Studies (required for anyone admitted into the program with fewer than 24 credits): Credits

or PHY 241-242	General Physics I-II	5-5
or PHY 241-212	General Physics I, Introduction to Physics II	5-4

D. In addition to the courses not chosen to fulfill the requirement in Section B, the following are strongly recommended for students intending to pursue graduate studies:

		Credits
MAT 241-242	Introduction to Calculus and Analytical Geometry I-II	4-4
CHE 253-254	Organic Chemistry I-II	4-4
CHE 253L-254L	Organic Chemistry Lab I-II	1-1

\*SCI 497 may be taken in place of either BIO 497 or 498.

## **Mathematics Major**

In addition to the general education requirements (see pp. 87-88), the following courses are required:

A. Required courses in Freshman Studies (required for anyone admitted into the program with fewer than 24 credits):

		Credits
SCI 100	The Natural World: The Caribbean	3
SSC 100	An Introduction to the Social Sciences: A Caribbean Focus	3
FDS 100	Freshman Development Seminar	1

B. Required courses in Mathematics:

		Credits
MAT 215	Introduction to Number Theory	3
MAT 241-242	Introductory Calculus and Analytic Geometry I-II	4-4
MAT 261	Linear Algebra	4
MAT 341-342	Intermediate Calculus I-II	3-3
MAT 362	Abstract Algebra I	3
MAT 441	Introductory Analysis I	3
MAT 397, 398	Junior Mathematics Seminar I, II	1/2, 1/2
MAT 497, 498*	Senior Mathematics Seminar I, II	1, 1

\*SCI 497 may be taken in place of either MAT 497 or 498.

C. Six elective courses from the following are required; a cluster of four courses must be approved by the advisor (see E. Suggested tracks):

		Credits
MAT 233	Discrete Mathematics	3
MAT 301	Modern Geometry	3
MAT 325	Numerical Analysis	3
MAT 332	Mathematical Statistics	3
MAT 344	Probability	3
MAT 346	Differential Equations	4
MAT 348	Complex Variables	3
MAT 352	Mathematical Modeling	3
MAT 361	Bioinformatics	4
MAT 386	History and Philosophy of Mathematics	3
MAT 442	Introductory Analysis II	3
MAT 458	Topology	3

# Bachelor of Arts Degree

Credits

MAT 461	Abstract Algebra II	3
MAT 465, 466	Special Topics	3,3
MAT 499	Approved Independent Study	3
One approved upper-level course in another discipline		

D. Strongly Suggested Courses in Related Fields: Credits

CSC 117	Introduction to Programming	4
PHY 241-242**	General Physics I-II	5-5

*\*\*Partially satisfies the general education requirement in science.*

E. Suggested Tracks: Credits

**Applied:** For majors interested in applied mathematics in the physical and engineering sciences, actuarial sciences, or business

MAT 325	Numerical Analysis	3
MAT 332	Mathematical Statistics	3
MAT 344	Probability	3
MAT 346	Differential Equations	3
MAT 348	Complex Variables	3
MAT 352	Mathematical Modeling	3
One approved upper-level course in another discipline.		3

**Teaching:** For majors considering a career in secondary education

MAT 233	Discrete Mathematics	3
MAT 301	Modern Geometry	3
MAT 332	Mathematical Statistics	3
MAT 344	Probability	3
MAT 352	Mathematical Modeling	3
MAT 386	History and Philosophy of Mathematics	3

**Graduate:** For majors considering graduate study in mathematics

MAT 348	Complex Variables	3
MAT 442	Introductory Analysis II	3
MAT 458	Topology	3
MAT 461	Abstract Algebra II	3
