

ON THE COVER: **Specializing in Futures**

The University of the Virgin Islands, now in its 54th year, is the educational gateway for a multitude of students who seek higher education in the territory. The beautiful signage surrounded by bougainvillea, a ubiquitous plant in the Virgin Islands, greets students and visitors at the university entrance on the St. Thomas campus. Students on the Albert A. Sheen campus are able to access a full range of academic opportunities, and the two pictured have collaborated on a project on that campus. Three University students, on the St. Thomas campus, participate in an underwater course offered by the Marine Biology program. At commencement, UVI graduates joyfully accept degrees in Science.
