“This program has taught me that I am interested in marine science and that I may pursue it as a career in the future.” – Gabrielle Quetel
“This opportunity has influenced me to get out and explore nature more and depend less on my cell phone.”

– Anissa Wallen
“After going through this program, I do see myself as a marine scientist, possibly studying marine mammals someday.” – Davante Petersen
“In this program I have learned a lot and that I have to try different things to find more about myself. So doing this camp made me think about looking more into marine science.” – Keziah Bellew
“Having done this program, I have now found a way to combine my love for science and law into a career such as environmental policy.”

– Kaylin Wallen
“Through this program I have learned that I have a great desire to help animals and plants that are in need.” – Mikhail Dubovoy
WEEK 3 ACTIVITIES

“After attending this program I learned that I enjoy science more than I thought and that I should appreciate all the life found in the ocean.” – Ari-El Joshua

“This camp is a good experience and if you’re interested in marine biology, you should definitely attend!” – Chervaunte Lewis
WEEK 4 ACTIVITIES

“No matter what I pursue after this, I will always keep marine biology in the back of my head because I enjoyed this experience.”

– Austin Sterling
WEEK 4 ACTIVITIES

“One thing I learned about myself through this program is that I like marine biology and that I can become a marine biologist. “

– Kaden Callwood
