[1] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been "sold but not yet occupied;" and then multiplied by 100.

[2] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of renter-occupied units, vacant units that are "for rent," and vacant units that have been "rented but not yet occupied;" and then multiplied by 100.

[1] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been "sold but not yet occupied;" and then multiplied by 100.

[2] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of renter-occupied units, vacant units that are "for rent," and vacant units that have been "rented but not yet occupied;" and then multiplied by 100.

[1] Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.
[2] Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use by U.S. Statistical Agencies," issued by the Office of Management and Budget.

[3] "Families" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in an area issuing marriage certificates for same-sex couples. Same-sex couples are included in the families category if there is at least one additional person related to the householder by birth or adoption; however, the same-sex spouse is not included in the count of people in families. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

[1] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been "sold but not yet occupied;" and then multiplied by 100.

[2] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of renter-occupied units, vacant units that are "for rent," and vacant units that have been "rented but not yet occupied;" and then multiplied by 100.

Not Hispanic or Latino	45,847	88.8	[1] Includes data for the American Indian and Alaska Native, Asian, Native Hawaiian and Other Pacific Islander, and Some Other Race populations.		
Black or African American alone	37,122	71.9	[2] In combination with one or more other races listed. The following three numbers may add to more than the total population and the three percentages may add to more than 100 percent because individuals may report more than one race.		
White alone	7,068	13.7	[3] This category is composed of people whose origins are from Cuba, Spain, and Spanish-speaking Central or South American countries. It also includes general origin responses such as "Latino" or "Hispanic."		
RELATIONSHIP			[4] "Spouse" represents spouse of the householder. It does not reflect all spouses in a household. Responses of "same-sex spouse" were edited during processing to "unmarried partner."		
Total population	51,634	100.0	[5] "Family households" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in an area issuing marriage certificates for same-sex couples. Same-sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households.		
In households	50,697	98.2	"Nonfamily households" consist of people living alone and households which do not have any members related to the householder.

[1] The homeowner vacancy rate is the proportion of the homeowner inventory that is vacant "for sale." It is computed by dividing the total number of vacant units "for sale only" by the sum of owner-occupied units, vacant units that are "for sale only," and vacant units that have been "sold but not yet occupied;" and then multiplied by 100.

[2] The rental vacancy rate is the proportion of the rental inventory that is vacant "for rent." It is computed by dividing the total number of vacant units "for rent" by the sum of renter-occupied units, vacant units that are "for rent," and vacant units that have been "rented but not yet occupied;" and then multiplied by 100.
